

Automatic Folded Mask Ear Loop Welding Machine (SE-KZ205043)

Summary

The Ultrasonic Automatic Folded Mask Ear Loop Welding Machine's function is welding the ear loop on the folded mask it is the folded mask production's last process from the manual to weld the ear loop to automatic welding the ear loop. This machine can save labors, improve capacity, to replace manual ear loop welding machine, to save labors and improve the capacity for customer. This machine adopt High quality Alum craft, the surface is very beautiful. PLC controlling, stable working.

Technical Data

Model	SE- KZ205043
Voltage	220V
Power	3kw
Air Pressure	6KG
Weight	430KG
Size	2500*1000*1700mm

Functions and Features

- ✓ This machine is using ultrasonic to welding the elastic band on the mask's 2 sides, to finish automatically.
- ✓ Works automatically to change the traditional feeding material by manual, adopt mechanical automatic grow the material and sending the material.
