Technical Data

Model	SE- CMM06B
Power	900W
Voltage	220V
Frequency	20Khz
Capacity	10 – 12 pcs/min
Dimensions	1800 x 600 x 1400 MM

Functions and Features

- ✓ Pull tube feeding positioning is more accurate, it can control to a minimum width of raw materials and save cost
- ✓ The length of product is controlled of uniform size, deviation ± 1 mm, it can effectively control the product length, the slice of product not only to meet the production process requirements, but also eliminate the waste
- ✓ High degree of automation low requirement of worker, just need to put on the raw material to the machine and take out the finished
- ✓ Inverter control the production speed can be adjusted according to the request.
