Ultrasonic Lace Sewing Machine (SE-60LM4)

We, SHEETAL ENTERPRISES, are manufacturer of welded products using Ultrasonic Welding Machine, Cutting Machine, Drilling Machine & Continuous Ultrasonic Welding Machines. Having been associated with our parent company in Germany & Taiwan. we have 30 years of experience in plastic welding technology. We have been developing and manufacturing high-performance ultrasonic welding machines.

In Ultrasonic Welding Technology, we hold the expertise in industrial and technical plastic components for Automobile, Medical, Pharmaceuticals, Engineering and other industries. We have developed number of products for various clients. We carry out different jobs that include Supply of Machines, Installation and Commissioning, Design and development of tooling/horns, Training of Operators/manpower, Maintenance of Equipment and trouble shooting (for a minimum period of one year) and any other related technical service if required.

Technical Data

Model	SE- 60LM4
Brand	Sheetal Sonic
Technology	Ultrasonic
Efficiency	Excellence
Voltage	50/60HZ, 220VAC/10A
Power	1200Watt
Frequency	20Khz
Weight	150KG
Dimensions	1200x550x1200mm (L*W*H)
Working Speed	8.20m/min
Width of roller	2 Inches

Functions and Features

- Ultrasonic welding without needle and thread, also can cut, sealing and embossing, welding effect strong cementation dint, waterproof artistic effect, high quality.
- Processing by ultrasonic and steel roller, no damage to mercery edge, no rough selvedge.
- This machine could be operated without pre-heating and has the advantage of continuous production.
- A general worker could operate the machine owes to the convenient and easy-understanding operation of this machine.
- Save cost, 5-6 times high productivity than traditional machine.
- Roller and Taiwan imported horn made of special alloy steel, roller's pattern can design by client's requirement, Taiwan imported horn stand wear and tear long using life, easy to replace roller and horn, core shift design, flexible adjusting, easy to adjust the horizontal.

Machine Details

Ultrasonic Lace Sewing Machine, also could be called ultrasonic lace machine, ultrasonic sewing machine, is efficient sewing embossing device, use to sewing, welding, cutting and embossing synthetic fiber material. Processing without needle and thread, final products can be water tightness section without rough selvedge and smooth. Widely use to process clothing, toys, food and non-woven materials. Our company provide: ultrasonic lace sewing machine, double column type ultrasonic lace sewing machine and non-standard ultrasonic lace sewing machine to satisfy various industries' requirement." Your professional auto non-woven sewing cutting machinery designer.
