Ultrasonic Non-woven Shoe Cover Machine (SE-XT2055)

We, SHEETAL ENTERPRISES, are manufacturer of welded products using Ultrasonic Welding Machine, Cutting Machine, Drilling Machine & Continuous Ultrasonic Welding Machines. Having been associated with our parent company in Germany & Taiwan. we have 30 years of experience in plastic welding technology. We have been developing and manufacturing high-performance ultrasonic welding machines.

In Ultrasonic Welding Technology, we hold the expertise in industrial and technical plastic components for Automobile, Medical, Pharmaceuticals, Engineering and other industries. We have developed number of products for various clients. We carry out different jobs that include Supply of Machines, Installation and Commissioning, Design and development of tooling/horns, Training of Operators/manpower, Maintenance of Equipment and trouble shooting (for a minimum period of one year) and any other related technical service if required.

Functions and Features

- Both Chinese & English operating interface, buttoned control panel which is easy for learning and operating.
- Compact and smart design, accurate control by frequency converter.
- Chromium plating for all the spare parts, beautiful and clean aluminum alloy frame.
- All rubber covered roller feeding system for smooth feeding; no products will be hurt during the processing.
- Optional ultrasonic welding and hot melt welding.
- Whole set original imported components, stable and lower error rate.
- Autonomously research and development, with high quality and high productivity, only one worker is needed for operation, can save the cost and raise the output efficiently to get more profit for the factory.
- PP and PE material can be both used with this machine.

Technical Data

Model	SE- XT2055
Brand	Sheetalsonic
Design Type	Latest
We Deal In	New
Technology	Ultrasonic
Accuracy	Good
Efficiency	Excellence
Frequency	20Khz
Voltage	220V, 50/60 HZ
Power	5.5KW
Size	2150(L) x 2100(W) x 1200(H) MM
Productivity	40-60 pcs/min

Machine Details

Auto ultrasonic PE film/PP non-woven shoe cover machine is developed by Sheetal Enterprise with 5 months bias on PE shoe cover machine and PP non-woven shoe cover machine, with keeping the original stability and productivity but combined two capability together to make the machine can produce both PE film shoe covers and PP non-woven shoe covers which need to be finished by two machines but now only one machine be needed, which can save both invest and cost for the customers.
